Dear Friends and Colleagues,

Over the past several years C2D has grown from a wild-hair idea to a life-f fulfilling enterprise. I wanted to take an opportunity to share with you a bit about some current efforts.

For decades, I've been graced to be working side-by-side a number of quality individuals from a host of engineering, planning, scientific, legal, public relations, and construction firms—not to mention forward-thinking clients—and for that I'm very thankful.

All my best to you and your family,

Corry T. Platt, CEP

environmental consultant

Tailored to meet your need...

Corry Platt is a nationally Certified Environmental Professional with a project history in over 20 States, US Territories, Latin and South America. He is comfortable from the field to the board room with experiences to match. His German and Spanish language skills, business savvy, familiarity with project development as well as regulatory requirements brings a unique skill to your project team.

Corry serves as a Board of Trustees member to the Academy of Board Certified Environmental Professionals.

C2D maintains general liability, contractor pollution liability, and professional liability insurance coverage of \$1 million.

Sustainable, Adaptable, and Experienced

Featured Staff Profile...Corry Platt, CEP

From his beginnings as a research assistant in botany and ornithology, Mr. Platt's entry into the business sector investigating and remediating hazardous waste/Superfund sites in over 20 eastern States has grown through first-hand, 'on-the-ground' experience to include dredging, dredged material handling and disposal, coastal structures, endangered species, wetland and stream restoration, liability assessments and property transfers, and more.

OVERVIEW

- Certified Environmental Professional #02040406
- 18 years progressive professional experience
- Permitting, documentation (EA/EIS), negotiation
- Dredging and coastal structures, sediment characterization
- Contamination, natural resource assessment and restoration
- Ecological and human health risk assessment

President—C2D since 2002
Program Manager—Kimley-Horn and Associates
Senior Scientist—Environmental Services, Inc.
Assistant Project Manager—Black & Veatch
Environmental Scientist—Malcolm Pirnie, Inc.
Environmental Scientist—Brown & Root

Value Added...

Corry draws on his decades of first-hand experience with Federal, State, and local regulations span contamination and remediation, water quality, waste and petroleum handling, wastewater/sewage handling and disposal, spill prevention and pollution control, non-point source pollution, point source discharges, stormwater, wetlands, endangered species, essential fish habitats, shoreline stabilization, and the natural environment capitalizing on 'lessons learned' for clients.

Corry understands and has sat on both sides of the table—be it as a contractor to the EPA investigating Superfund properties identifying wrongdoings or as a consultant to private industry wrestling with compliance with USACE, EPA, NOAA, USCG, State Coastal Management, State Water Quality, and local regulations and requirements.

Corry's decades of experience carrying projects from inception/planning through construction stand ready for application...from "how to" to "we're done," put Corry's can do attitude to work for you!
